I Revoluation: A datadriven exploration of apple's iphone impact in india.

since the launch, of the iphone, it is evident that the demand of the product has been increasing, and there is fear that the latter may be overlapping the supply of the product.

Short summary of the persona

iphone is designed to protect your data and your privacy.built-in privacy features minimize how much of your information is available to anyone but you, and you can adjust what information is shared and where you share it.

applea authorised resellers offer industry expertise, multiplatform services and mac-based solutions for a wide variety of organisation.

in the case of apple's products, the iphone is an elastic product on demand.this is because the product is in a competitive market whereby consumers may opt to use other smart phones with similar applications.

find current openings, university jobs,internships and • See an example ore so iphone is used more postive activitys.

if the price of the iphone goes high beyond the consumer's meet, then, it is very easy for them to look for substitute products.

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?
